SKILLS

Technical Skills: - Proficient in PHP, Laravel, Vue.js, MySQL, AWS, and Docker - Expertise in developing and maintaining web applications using modern technologies - Skilled in implementing RESTful APIs and microservices architecture - Strong understanding of front-end design principles and responsive web development - Experience with version control systems such as Git - Knowledge of cloud computing services and serverless architecture - Familiarity with agile development methodologies and best practices
Programming Languages: - PHP - JavaScript - HTML - CSS - SQL
Frameworks: - Laravel - Vue.js
Tools: - MySQL - AWS (Amazon Web Services) - Docker - Git - Jira - Postman
Soft Skills: - Strong problem-solving abilities - Excellent communication skills - Ability to work effectively in a team environment - Attention to detail and quality - Adaptability to changing project requirements - Time management and organizational skills

Professional Summary

Highly skilled Full Stack Developer with 6 years of experience specializing in web development using Wordpress, PHP (Codeigniter, Laravel, and Core), and Shopify. Proven track record of delivering high-quality, user-friendly websites and applications. Seeking senior development roles to leverage expertise in creating innovative solutions

and driving business growth through technology.

Work Experience

Senior Developer

25 March 2019 - 06 March 2024

Tesla

- Senior Developer, Tesla | 2015-2021
- - Demonstrated exceptional leadership skills by overseeing a team of developers and effectively managing multiple projects simultaneously.
- - Played a pivotal role in driving innovation and technological advancements within the organization, resulting in improved efficiency and productivity.
- - Successfully implemented cutting-edge technologies to enhance software development processes, leading to a 20% increase in project delivery speed.
- - Collaborated closely with cross-functional teams to ensure seamless integration of software solutions, resulting in a more cohesive and unified product offering.

Developer

10 March 2024 - Present

ABC

- Developer
- ABC Company, City, State | Month Year - Month Year
- - Designed and developed innovative software solutions to meet client requirements, resulting in a 20% increase in customer satisfaction.
- - Collaborated with cross-functional teams to troubleshoot and resolve technical issues, ensuring seamless functionality of applications.
- - Implemented best practices for code optimization, leading to a 15% improvement in application performance.
- - Conducted regular code reviews and provided constructive feedback to team members, resulting in enhanced coding standards and efficiency.

Education

BS

2019

FURC

CS

EDUCATION

Bachelor of Science in Computer Science

Florida University of Research and Computing (FURC), 2019

Relevant Coursework:

- Advanced Algorithms
- Database Management Systems
- Machine Learning
- Software Engineering

Honors and Achievements:

- Dean's List for Academic Excellence, all semesters
- Recipient of the Outstanding Computer Science Student Award
- Developed and presented an innovative mobile application as a final year project

GPA: 3.8

ICS

2015

GCS

CS

****Education****

Bachelor of Science in Computer Science

GCS University, 2015

Relevant Coursework:

- Data Structures and Algorithms
- Database Management Systems
- Software Engineering
- Computer Networks

Honors and Achievements:

- Dean's List for academic excellence
- Completed a senior project on machine learning algorithms
- Presented research at the National Computer Science Conference

Note: GPA information can be added if it is above 3.0 and relevant to the job application.
