

Shahlizah Zafar

fgvsgd

Professional Summary

Experienced software engineer with 10+ years of expertise in full-stack development, cloud architecture, and agile methodologies. Proven track record of delivering high-quality solutions and leading cross-functional teams to success. Passionate about building scalable applications and mentoring junior developers.

Experience

Senior Developer

-

Tesla

- Senior Developer, Tesla
- Fremont, CA | 2016-2021
- - Spearheaded the development of innovative software solutions, leading a team of developers to successfully launch cutting-edge projects.
- - Collaborated with cross-functional teams to design and implement software features, ensuring seamless integration with existing systems.
- - Optimized code performance and maintained high standards of quality, resulting in a 20% increase in overall efficiency of software applications.
- - Implemented best practices in coding and version control, significantly reducing bugs and enhancing product reliability.

Education

BS

2019

FURC

CS

Education

Bachelor of Science in Computer Science

Fictional University of Research and Computing (FURC)

Graduated: 2019

Relevant Coursework:

- Data Structures and Algorithms
- Database Management Systems
- Software Engineering
- Artificial Intelligence

Honors/Achievements:

- Dean's List for Academic Excellence
- Winner of the Coding Competition at the Annual Tech Symposium
- Completed a Capstone Project on Machine Learning Algorithms

Note: GPA of X.XX/4.00

ICS

2015

GCS

CS

****Education****

Bachelor of Science in Computer Science

GCS University, Graduated 2015

****Relevant Coursework:****

- Data Structures and Algorithms
- Software Engineering
- Operating Systems
- Database Management Systems

****Honors:****

- Dean's List for Academic Excellence, 2013-2015

****Achievements:****

- Led a team project to develop a mobile application that received recognition at a regional tech competition
- Completed an internship at a leading tech company, contributing to the development of a new software product
