Professional Summary

Experienced software engineer with 10+ years of expertise in full-stack development, cloud architecture, and agile methodologies. Proven track record of delivering high-quality solutions and leading cross-functional teams to success. Passionate about building scalable applications and mentoring junior developers.

Work Experience

- **Senior Developer**

  -

  Tesla
  - **Senior Developer, Tesla Inc. | 2016-2021**
  - - Spearheaded the development of a robust microservices architecture catering to over 1 million users, achieving an impressive 99.9% uptime rate.

- - Mentored and coached a team of 5 junior developers, providing guidance in code reviews and technical training to enhance their skills and efficiency.
- - Elevated system performance by 40% by implementing advanced database optimization techniques and strategic caching solutions.
- - Successfully implemented Continuous Integration/Continuous Deployment (CI/CD) pipelines, resulting in a 60% reduction in deployment time and ensuring seamless software releases.

Education

- **BS**
  2019
  FURC
  CS
  Education:
  Bachelor of Science in Computer Science
  Fictitious University of Research & Computing (FURC) - 2019

  Relevant Coursework:
  - Object-Oriented Programming
  - Data Structures and Algorithms
  - Database Management Systems
  - Software Engineering

  Honors & Achievements:
  - Dean's List for four consecutive semesters
  - Recipient of the Outstanding Computer Science Student Award
  - Led a team project that received recognition at the Annual Computer Science Symposium

  GPA: 3.8 (on a 4.0 scale)

Skills

Skills: - Proficient in PHP, Laravel, CodeIgniter, WordPress, and Shopify - Strong understanding of front-end technologies such as HTML5, CSS3, JavaScript, and jQuery - Experienced in developing and customizing themes and plugins for WordPress and Shopify - Skilled in working with databases like MySQL and MongoDB - Knowledgeable in version control systems such as Git - Familiar with RESTful APIs and web services integration - Ability to troubleshoot and debug complex issues efficiently - Strong problem-solving and analytical skills - Excellent communication and teamwork abilities - Proven track record of delivering high-quality projects on time and within budget - Up-to-date with the latest trends and best practices in web development.
